

LawMate & e_AI_Court – Reimagining Justice in India

Version 1: Legal Helpdesk | Version 2:
AI-Powered Dispute Resolution

Problem Statement

- • Over 5.2 crore pending legal cases in India
- • Shortage of judges and lawyers across courts
- • Citizens lack affordable and accessible legal support
- • Delay in justice delivery affects trust and social order

Vision & Mission

- Vision: Deliver fast, fair, and affordable legal aid using AI and smart technology.
- Mission: Empower every Indian with legal knowledge and tools for justice.

Version 1 – LawMate (Legal Helpdesk)

- • AI-powered legal bot for common queries
- • Auto-document generation (RTIs, notices, complaints)
- • ₹99 lawyer consultation booking
- • Local law navigator by state/city
- • Easy UI for non-technical users

Version 1 Roadmap (6 Months)

- Month 1: Research, UI/UX design, feature planning
- Month 2: Build LegalBot & Local Law DB
- Month 3: Auto-Doc Generator + Lawyer Connect module
- Month 4: Beta launch (Delhi) + feedback collection
- Month 5: Multi-language support + refine
- Month 6: Pan-India marketing launch

Go-To-Market Strategy & Revenue Model

- • Partner with legal NGOs, influencers, and RTI groups
- • Content marketing: reels, explainers, blogs
- • Freemium model: Basic queries free, docs/consults paid
- • Revenue streams: ₹99 consultations, premium docs, partner APIs

Version 2 – e_AI_Court Concept

- • AI-powered smart arbitration for minor legal issues
- • Handles consumer, rent, traffic, and employment disputes
- • Accepts case evidence and provides rule-based judgments
- • Option to escalate to human court if needed

Version 2 Roadmap (1 Year)

- Q1: Data collection & modeling (select case types)
- Q2: AI rules engine + alpha testing
- Q3: Launch pilot with human oversight
- Q4: Add categories + 3-city rollout
- Q5: Partnerships with gov/ODR institutions

Legal & Ethical Considerations

- • AI decisions must be explainable and auditable
- • User consent and data privacy is essential
- • Final verdict appealable to human court
- • Platform must follow Indian Arbitration and IT laws

Competitive Advantage

- • Combines AI + legal network + automation
- • First full-stack legal-to-AI court transition plan in India
- • Hyperlocal law mapping by city/state
- • Built-in revenue model from day one

Long-Term Vision – Smart Legal Grid

- • AI courts resolving 70% of small disputes within 1 hour
- • Legal literacy in every household via LegalBot
- • India becomes global leader in AI justice delivery
- • Integrated platform for courts, citizens, and lawyers

Next Steps & What We Need

- • Mentorship in AI law modeling
- • Pilot access with NGOs/government support
- • Initial funding for platform build & operations
- • Legal advisors and strategic tech partners

*****LawMate - Personal Legal Helpdesk for Citizens*****

❓ Problem:

Millions of people need legal help for tenancy issues, consumer complaints, traffic fines, harassment, or employment contracts—but they can't afford lawyers or don't know their rights.

💡 Concept:

LawMate is an AI-powered web platform that simplifies legal understanding for ordinary people and connects them to verified lawyers **only when needed**.

🔑 Key Features:

- 🧠 **LegalBot**: Explains user problems in layman terms & suggests next steps
- 📄 **Auto-Document Generator**: Drafts complaint letters, RTIs, legal notices, etc.
- 🎯 **Lawyer Connect**: Book verified lawyers for ₹99/consult (first 15 mins)
- 🔍 **Local Law Navigator**: Location-specific law rules (e.g., housing laws differ by state)

💰 Monetization:

- Paid document generation (₹49–₹299)
- Lawyer connect commission (10-20%)
- Subscription for unlimited queries (₹199/mo)
- Ads from law firms/NGOs

Thank You

- Together, let's reimagine justice for every Indian citizen.
